

PRODUCT DATA SHEET

Sarnafil® T Scupper round

PREFABRICATED FPO ROOF DRAIN

DESCRIPTION

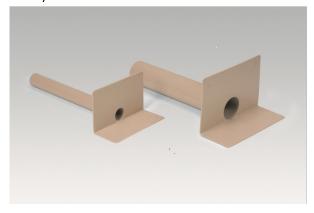

Sarnafil® T Scupper round is a rigid polyolefin prefabricated injection moulded rainwater outlet for flat roofs used with Sika roof sheet membranes which can be heat welded onto the drain.

USES

 Rainwater outlet through the parapet for use with Sarnafil® and Sikaplan® sheet membranes.

CHARACTERISTICS / ADVANTAGES

- Resistant to UV exposure
- Membrane can be welded directly to the base plate
- Easily applied
- Heat weldable
- Recyclable

PRODUCT INFORMATION

Composition	Polypropylene (PP)		
Packaging	Depending on the order quantity and product size, the products are packaged on pallets or in cartons.		
Appearance / Colour	Colour beige		
Shelf life	5 years from date of production		
Storage conditions	Product must be stored in original unopened and undamaged sealed packaging in dry conditions and temperatures between + 5 °C and + 30 °C. Always refer to packaging. Do not stack pallets of rolls or any other material on top during transport or storage.		
Surface	smooth

SYSTEMS						
System Structure	The following products must be considered for use depending on roof design:					
	 Sarnafil® TG 66 - types 					
	■ Sarnafil® TS 77 - types					
	■ Sarnafil® TG 76 - types					

Ambient Air Temperature	-20 °C min. / +60 °C max.
Substrate Temperature	-30 °C min. / +60 °C max.

APPLICATION INSTRUCTIONS

APPLICATION

Refer to the relevant section in the Installation instructions: Sarnafil® T

IMPORTANT CONSIDERATIONS

- Installation work must only be carried out by Sika® trained and approved contractors, experienced in this type of application
- The use of Sarnafil® T Scupper round is limited to geographical locations with average monthly minimum temperatures of -30 °C Permanent ambient temperature during use is limited to +50 °C
- The use of some ancillary products such as adhesives, cleaners and solvents is limited to temperatures above +5 °C. Observe temperature limitations in the appropriate Product Data Sheets
- Special measures may be compulsory for installation below +5 °C ambient temperature due to safety requirements in accordance with national regulations

BASIS OF PRODUCT DATA

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the application fields

ECOLOGY, HEALTH AND SAFETY

Fresh air ventilation must be ensured, when working (welding) in closed rooms.

REGULATION (EC) NO 1907/2006 - REACH

This product is an article as defined in article 3 of regulation (EC) No 1907/2006 (REACH). It contains no substances which are intended to be released from the article under normal or reasonably foreseeable conditions of use. A safety data sheed following article 31 of the same regulation is not needed to bring the product to the market, to transport or to use it. For safe use follow the instructions given in this product data sheet. Based on our current knowledge, this product does not contain SVHC (substances of very high concern) as listed in Annex XIV of the REACH regulation or on the candidate list published by the European Chemicals Agency in concentrations above 0.1% (w/w).
