

PRODUCT DATA SHEET

EVERBUILD TECNIC® Joint Backer Rod

JOINT BACKER ROD

DESCRIPTION

EVERBUILD TECNIC® Joint Backer Rod is a non absorbent, compressible grey closed cell polyethylene (P.E) foam backup material.

USES

- As a backing material for cold applied joint and as a joint filler in order to achieve the required thickness of the sealant
- As a Bond-Breaker that enables correct joint sealing
- Creating a backstop to allow proper sealant tooling

CHARACTERISTICS / ADVANTAGES

- Quick and easy to apply
- Reduces sealant usage
- Improves sealant performance by obtaining easily the correct joint dimensions
- Flexible – won't bubble or blister

PRODUCT INFORMATION

Chemical base	Polyethylene
Packaging	Rolls of the following sizes: 10mm Diameter x 1150 Mtr 15mm Diameter x 550 Mtr 20mm Diameter x 350 Mtr 25mm Diameter x 200 Mtr 30mm Diameter x 160 Mtr Loose rolls packed in a box
Appearance / Colour	Grey foamy cordons
Shelf life	Unlimited if stored in its original packaging and if the storage conditions are met.
Storage conditions	In dry conditions, protected from direct sunlight.

APPLICATION INSTRUCTIONS

APPLICATION METHOD / TOOLS

Insert the rod into the required depth, paying great attention so that the rod is not injured, cut or perforated at this process. Do not use sharp tools (e.g. screw drivers or knives). At the process of placement avoid

the excessive elongation of the rod. Then follow the process of sealing the joint and tooling the sealant.

BASIS OF PRODUCT DATA

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control. LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the application fields.

ECOLOGY, HEALTH AND SAFETY

REGULATION (EC) NO 1907/2006 - REACH

This product is an article as defined in article 3 of regulation (EC) No 1907/2006 (REACH). It contains no substances which are intended to be released from the article under normal or reasonably foreseeable conditions of use. A safety data sheet following article 31 of the same regulation is not needed to bring the product to the market, to transport or to use it. For safe use follow the instructions given in this product data sheet. Based on our current knowledge, this product does not contain SVHC (substances of very high concern) as listed in Annex XIV of the REACH regulation or on the candidate list published by the European Chemicals Agency in concentrations above 0.1% (w/w).

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
