

# Sikafloor<sup>®</sup> Marine-118 FC

## FAST CURING SELF-LEVELLING COMPOUND

- Fast strength build-up
- Non-combustible
- Great refurbishment solution

BUILDING TRUST

# Sikafloor® Marine-118 FC

Sikafloor® Marine-118 FC is a one-component, fast curing self-levelling mortar based on polymer modified cement. The product is applied on interior decks, as constrained layer in the Sikafloor® Marine visco-elastic system or as primary deck covering prior to the application of deck finishing materials such as carpets, tiles, parquet, rubber and vinyl.

For specific applications consult the product data sheet or Sika technical service.

## PRODUCT BENEFITS

- Fast strength build-up
- High compressive strength
- Excellent levelling properties
- Great pumpability
- Water based one-component
- Ideal for heavy duty areas
- Ideal for refits

## Technical Properties

Chemical base	1-Component polymer
Density	1.8 kg/m <sup>2</sup> /mm
Applied thickness	Minimum 3 mm
Ready to walk on	Approx. 2 hr.
Compressive strength	> 35 MPa
Flexural strength	7.7 MPa
E-Modulus	12.3 GPa
Shelf life	12 months

Our most current General Sales Conditions shall apply. Please consult the most current local Product Data Sheet prior to any use.
