PRODUCT DATA SHEET

Sika Boom®-108 Foam Cleaner

Cleaner for Sika Boom® Dispenser guns

DESCRIPTION

Sika Boom®-108 Foam Cleaner is a specific cleaner for PU foam dispenser guns and for removing uncured SikaBoom® residues from surfaces.

USES

- Removing SikaBoom® uncured foam from application equipment after use
- Removing fresh, uncured polyurethane foam residues from other surfaces

FEATURES

- Effective cleaner for residual SikaBoom® foam that has not yet hardened
- Excellent cleaner for SikaBoom® Dispenser and general guns for polyurethane foam
- Integrated valve for precise application

PRODUCT INFORMATION

Composition	Solvent base cleaner
Packaging	0,5 L can
Appearance and colour	Transparent
Shelf life	24 months from production date
Storage conditions	The product must be stored in original sealed packaging, unopened and undamaged, in dry conditions at temperatures between +5 °C and + 30 °C. Store upright. Always refer to the packaging instructions.
Density	0,85 kg/L

BASIS OF PRODUCT DATA

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

IMPORTANT CONSIDERATIONS

- Sika Boom®-108 Foam Cleaner may discolor or damage sensitive substrates (e.g. paint, plastic, fabrics). We recommend carrying out a preliminary compatibility test before use
- Sika Boom®-108 Foam Cleaner does not remove cured foam. Hardened foam can only be removed mechanically
- Do not spray near to flames or to incandescent objects. Store away from any source of ignition. Do not smoke during use
- Pressurised container, do not pierce. Do not expose

to direct sunlight, nor at temperatures higher than +50 °C
- Sika Boom®-108 Foam Cleaner without adequate ventilation can create explosive mixtures

ECOLOGY, HEALTH AND SAFETY

For information and advice on the safe handling, storage and disposal of chemical products, users shall refer to the most recent Safety Data Sheet (SDS) containing physical, ecological, toxicological and other safety-related data.

APPLICATION INSTRUCTIONS

APPLICATION METHOD / TOOLS

Sika Boom®-108 Foam Cleaner can be used either by screwing it onto the appropriate foam application gun or using the integrated spray nozzle to remove fresh foam residues and by spraying it manually to clean equipment and dirty surfaces with fresh foam.
Spray Sika Boom®-108 Foam Cleaner directly onto the fresh foam and let it react for 5 - 10 seconds, then remove foam residues with a clean cloth.
Sika Boom®-108 Foam Cleaner, once the nozzle is removed, can be screwed onto the Sika Boom® Dispenser guns to clean them after use. Screw Sika Boom®-108 Foam Cleaner onto the spray gun and pull the trigger a few times to remove all foam residues.

LOCAL RESTRICTIONS

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the application fields.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
