For style: A residential home in the Netherlands. Their living room floor is Sikafloor® PS23 System.

YOU HAVE AN EYE FOR DESIGN. YOU HAVE HIGH STANDARDS. Sika ComfortFloor® IN THE LIVING ROOM.

The living room is the showcase of the home. It begins and ends with the floor; it must be perfect. Perfect design, perfect fit, perfect color and absolute precision throughout. It's a unique combination of modern design and absolute livability – nice to walk on, soft to the touch, easy to clean and no cracks or joints.

Your home will never quite be the same with Sika ComfortFloor®. It provides a completely seamless floor in any color, that's easy to maintain, durable enough to stand up to furniture and constant wear yet soft and comfortable to the touch.

ASK FOR Sika ComfortFloor® FOR BEST RESULTS IN THE LIVING ROOM. THE COLOR IS UP TO YOU.

LIVE WITH PERFECTION

Sika ComfortFloor® AT HOME

Great start: Waking up to a warm, comfy floor makes the day better... now time for a bath, also a Sikafloor® PS25 System.

THE PERFECT FLOORING FOR A GOOD NIGHT'S REST. Sika ComfortFloor® IN THE BEDROOM.

Are you serious about creating a comfortable space that also looks superb? A bedroom with a completely seamless and continuous floor makes an impression. On your feet too: Sika ComfortFloor® feels warm and soft to bare feet. This also helps reduce noise and makes the whole room quieter. That's what a perfect bedroom looks like.

The degree of softness and the acoustic performance of Sika ComfortFloor® can be modified according to the system you choose. What remains consistent is how the flooring contributes to a clean interior environment and easy breathing.

ASK FOR BEST RESULTS IN THE BEDROOM. LET YOUR FEET TELL YOU WHAT FITS BEST - IN ANY COLOR...

Bigger & better: The seamless, durable style of a Sika ComfortFloor® is ideal for a professional-size kitchen – here a Sikafloor® PS27 System.

THE FLOOR SETS THE STYLE. THE MEAL SETS THE MOOD. Sika ComfortFloor® IN THE KITCHEN.

Life is lived in the kitchen. Lifestyle studies show that a majority of the time spent at home is kitchen time, where friends and family linger over a meal or conversation. And the kitchen is also the focus of innovations in art and technology for the home.

The art of innovation in the modern kitchen is Sika ComfortFloor®. It's a stylish and robust statement of your lifestyle and good taste. A seamless and perfectly smooth floor – waterproof, wear resistant, non-slip and easy to clean up – is the perfect complement to, well, a fantastic dinner!

ASK FOR BEST RESULTS IN THE KITCHEN. THE COLOR OF THE FLOOR CAN BE MATCHED TO YOUR KITCHEN INTERIOR, TOO.

Practical too: A beautiful, seamless bathroom floor is good for the whole family – here with a Sikafloor® PS23 System.

GOOD LOOKING AND HIGH PERFORMANCE. Sika ComfortFloor® IN THE BATHROOM.

You can see that Sika ComfortFloor® looks great. And it feels great on your feet. But in the bathroom, the floor provide great performance, too. The seamless flooring has to withstand a wet environment – and be slip-resistant whether wet or dry. Finally, keeping it clean and hygienic should be easy. That's perfection in performance.

Sika ComfortFloor®, applied as a liquid, cures to a completely seamless, smooth floor with no cracks, gaps or joints where dirt and bacteria can hide – even with changes in the color or design between the floor and the walls. A perfectly hygienic solution.

ASK FOR Sika ComfortFloor® FOR BEST RESULTS IN THE BATHROOM. THE COLOR OF THE FLOOR CAN BE MATCHED TO THE WALLS TOO.

TECHNICAL OVERVIEW

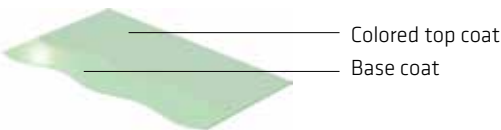

Seamless and harmonious design

The Sika ComfortFloor® systems are available with a range of variable characteristics including acoustics, durability, wear resistance, and surface elasticity.

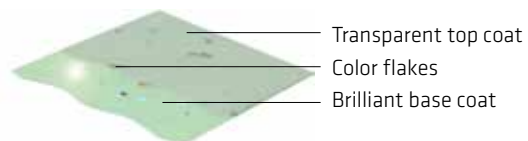

Sika ComfortFloor® LAYER SYSTEM

UPPER LAYER OPTIONS

STANDARD

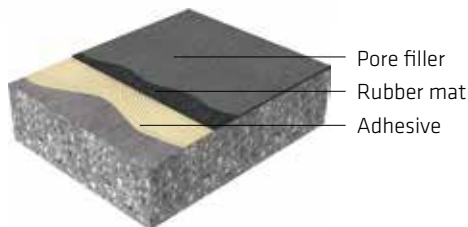

OR DECORATIVE

LOWER LAYER OPTIONS

SMOOTH

HEALTHY INDOOR AIR QUALITY

Sika ComfortFloor® is odorless during installation and use, and it meets all indoor air quality regulations regarding volatile organic compound (VOC) emissions, which can be harmful to human health and the environment.

SUPERIOR ACOUSTICS

Sikafloor® PS25 and PS26 systems feature an additional acoustic underlayment to help dampen noise. Sikafloor® PS23, PS24, PS25 and PS26 systems all integrate a soft elastic material that reduces echoing, and the disturbing noise of footsteps and falling objects.

DURABLE & ROBUST

Originally designed for commercial applications (shopping malls and hospitals), Sika ComfortFloor® withstands the heavy

foot traffic, heavy furniture loads and wear of entryways or hallways in a home. The flooring provides a strong, seamless barrier against water migration and cleaning chemicals. Scratches can be treated with a cleaner or repainted with a new thin layer.

Sika ComfortFloor® systems are installed without any adhesive or underlay, contributing to a lower carbon foot print compared to traditional flooring systems.

FURTHER TECHNICAL CHARACTERISTICS FOR Sika ComfortFloor® INCLUDE:

- Contributes points in Green Building Certification systems
- Compatible with underfloor heating installations
- Non-absorbent surface ideal for bathrooms
