# ADHESIVE SOLUTIONS FOR THE METAL FURNITURE INDUSTRY

When a structural bond and a pleasant look have to be achieved at the same time, Sika's technologies provide the right answer. Our products meet the most demanding market requirements, providing competitive advantages and long-term results. Our solutions fully satisfy metal furniture production needs: stiffeners and metal hinges are structurally bonded on door and panel materials such as wood, plastics and metals with a safe and aesthetic bond.

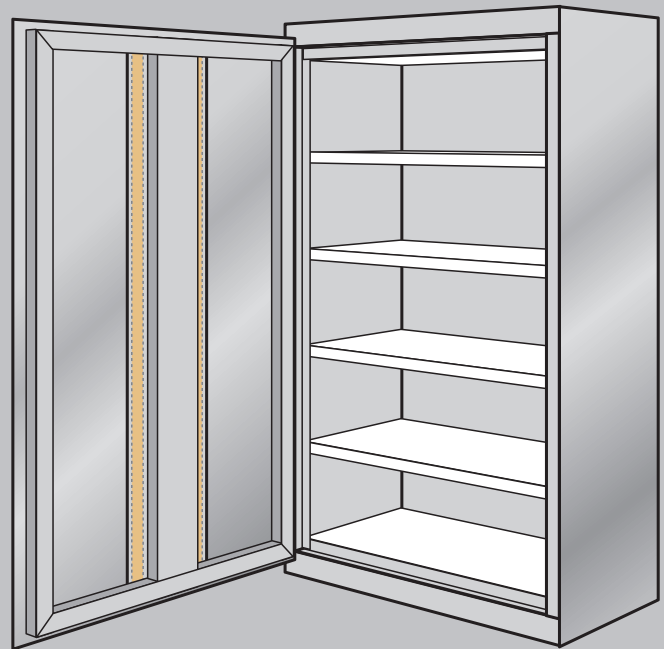

## ADVANTAGES

- No welding process and metal buckling
- High load-resistant solutions
- No corrosion caused by screw holes and rivets
- Sleek design without visible clamps or screws
- One solution for all process materials
- Easy and fast assembly process

## PRODUCT FEATURES

- Structural adhesives and sealants
- Gap filling and short handling time with the 2-component technology of Sikaflex®-953 and SikaFast®-5211 NT
- Suitable for a wide range of substrates
- Optimized both for large and small scale industrial applications
- SikaPower®-4588: warm-applied and heat-curing adhesive with very high wash-out resistance

Stiffener bonding: **SikaPower®-4588** only if applied before the painting process.

For pre-coated surfaces: **Sikaflex®-552 AT** or for faster assemblies, **Sikaflex®-953** can be used.
